1 PURPOSE

This paper provides a model of the PNC Stolen Property file within the CorDM.

2 BACKGROUND

The Stolen Property file brings to operational officers on a nation-wide basis a one-stop-shop on which the police can record items of significant identifiable property, i.e. they have a serial number. The application limits the property types to Plant, Engines, Marine Craft, Animals (if marked) Trailers and Sidecars and Firearms. Stolen Motor Vehicles are modelled in the PNC Vehicles model.

3 DATA MODELLING NOTES

The report aspects have been modelled as follows:

PNC report	CorDM class
Lost	A role of a Physical Object in an Incident or Crime (also covers stolen)
Found	A role of a Physical Object in an Incident or in a Repossession Notice

The model is presented as a single diagram in Figure 1.
